The building activity which Camden has been undergoing during the present year continues. New houses are in process of erection, and old ones are being remodeled, but the demand is yet for more houses. Several families would locate here if they could get houses, and it is to be regretted that those who own unimproved property do not build a few neat cottages for rent.

New that we are to have the iron fence to protect the court-yard, it would be advisable for the honorable county court to take some action for protecting the fence. Remove the old racks from the public square and make it a finable offense to hitch stock to the fence, thus avoiding the jam that occurs so frequently on the square on public days, prevent accidents, and relegate an old colonial idea that had deservedly seen its day years ago in all live, progressive towns.
